WIND WEIGHTED® Baseball Tarps

Tim Hill, Head Coach at Manatee Community College in Bradenton, FL, was the first to ever use Wind Weighted Baseball Tarps.

Mound and Base Covers that STAY PUT in WIND WITHOUT STAKES OR SANDBAGS

Steel chain in edge hem all around keeps wind from getting under, so they stay down even in high winds. Field proven to over 65 mph.

FEATURES

- Industrial grade 14 oz. vinyl polyester fabric for durability
- UV, mildew, and chlorine inhibitors added for long life
- Virtually tear-proof, and repairable if spiked
- Stock diameters: 12', 18', 20', 26', 30' • Squares: 6', 8', 10'
- Custom sizes and colors • Patented and Patent-Pending

Teams using Wind Weighted Tarps

Pros: Dodgers, Yankees, Mud Hens **Colleges:** Anderson, Cal-Berkeley, Charleston So., Jacksonville, Louisville, Mansfield, MI State, MN, Navy, NM, PA, Penn State, San Mateo, TN, VMI, WA, WA State
High Schools: Azle (TX), Cary (NC), Chaska (MN), Chelsea (MI), Dublin Jerome (OH), Huntington (NY), Owasso (OK), Palatine (IL), Park City (UT), Prosper (TX), Saratoga (CA), Terryville (CT)

Optional Wind Weighted INSTALLER™ device lets two players cover a pitcher's mound, home plate, or bull pen in less than 30 seconds.

Paul Pierce, HBB Coach at Collins Hill HS in Suwanee, GA, after his field had a 65 mph storm that destroyed fences, signs, and windscreens: "Our field was a mess. Then I noticed that our new Wind Weighted Baseball Tarp was still on the mound. Looking under, we found the covered part of the mound was untouched by the wind and rain."

**Why continue using stakes, sandbags, rocks, etc?
Wind Weighted Tarps save backs...and games.**

BUNT ZONE™ Infield Protector

Bunt Zone Protector utilizes color-coded target areas to teach proper bunting and hitting placement by visualization.

BUNTING & HITTING TARGET TRAINING SYSTEM BUILT INTO A QUALITY TURF PROTECTOR

- **RED** is the "bad bunt" zone
- **GREENS** are the "sacrifice bunt" zones
- **YELLOW** is the "bunt-for-a-hit" target zone

For hitting improvement, avoid RED for hit-and-run and pull-hitting situations. Use for up-the-middle hitting.

FEATURES

- Industrial grade vinyl coated polyester mesh
- Protected by UV & mildew inhibitors
- Tolerant of spike traffic, virtually tear proof
- Grommets and stakes included
- Sizes: Large 20' deep x 24' x 64', Medium 15' d x 24' x 54', Little League/Softball 15' d x 18' x 48'
- Multiple Patents Pending

Coach Tholen says, "The Bunt Zone Infield Protector is an exciting baseball teaching aid that will help batters learn the lost art of bunting. Visualization is the key. We coaches tell batters where to bunt, but not everybody responds to verbal instruction. With Bunt Zone Protectors, players can see exactly WHERE to bunt successfully. It gives immediate feedback with no coaching help needed. And best of all, it's built into a tough mesh infield turf protector that we can use everyday at practice. This is a permanent, always-on training system, not like the cones and other gadgets we've used occasionally. The Bunt Zone Infield Protector can improve bunting skills at all levels of baseball."

Harry Tholen, Head Baseball Coach Santa Fe Community College, Gainesville, FL, President NJCAA Baseball Coaches Assn., NJCAA Baseball Hall of Fame Inductee, ABCA Director
